SEDITION BILL PASSES CONGRESS

WASHINGTON, May 8.—Final legislative action was taken yesterday on the sedition bill, giving the government broad new powers to punish disloyal acts and utterances. Adopting a conference report already approved by the senate, the house sent to the president for his signature the measure which has been before congress for weeks, assailed as a menace to free speech and championed as essential to order at home during the war.

The president is expected to sign the bill promptly and, through vigorous enforcement of its provisions, officials of the department of justice say they will be able to do much toward checking the wave of mob outbreaks for which unpunished disloyalty and enemy activity are blamed.

Penalties of twenty years imprisonment or a fine of \$10,000 or both, are provided in the bill for those convicted of uttering or printing disloyal, abusive, profane, scurrilous, contemptuous or abusive language about the United States or the government or the form of government or the flag, for those who are convicted of favoring Germany or her allies in the present war.

The debate in the house was nothing like so extended as in the senate and, while some opposition developed there, only Representative London of New York, the Socialist, voted against the conference report on the final test.

Representatives Lundeen of Minneapolis, Republican, and Church of California, Democrat, voted present.

"When a group of conscienceless employers refuse to recognize the right of people to organize, they will have to deal with the I. W. W.," Representative London said. "I believe the I. W. W. is the working out of the law of compensation."

While the Pittman silver bill is popularly supposed to fix the price of silver at \$1 an ounce, the question has been raised whether this is not a minimum price, and that no limits have been placed on a maximum price.

The law as passed does not commandeer the output of silver, neither is there anything in the law or any agreement between the silver producers and the government that the mining companies shall sell to domestic consumers at the same price as to the government. In this respect the silver situation is different from steel and copper. In the case of both steel and copper the price to be paid by the government was reached by agreement between the producers and the war industries board. Moreover, it was

agreed that the steel and copper companies should sell to the allies and to domestic consumers at the same price as to the government.

Officials of silver producing companies say that no agreement has been made whereby their entire output, or any specific percentage of their output, is to be turned over to the government. The Pittman bill enables the government almost immediately to come into possession of 350,000,000 silver dollars, and, while these silver dollars may be melted and exported as fast as silver certificates can be drawn in, and the silver dollars so melted are to be replaced, there is not time limit placed on the recoinage.—Boston News Bureau.

QUICK RELIEF FROM CONSTIPATION

Get Dr. Edwards' Olive Tablets

That is the joyful cry of thousands since Dr. Edwards produced Olive Tablets, the substitute for calomel.

Dr. Edwards, a practicing physician for 17 years and calomel's old-time enemy, discovered the formula for Olive Tablets while treating patients for chronic constipation and torpid livers.

Dr. Edwards' Olive Tablets do not contain calomel, but a healing, soothing vegetable laxative.

No griping is the "keynote" of these little sugar-coated, olive-colored tablets. They cause the bowels and liver to act normally. They never force them to unnatural action.

If you have a "dark brown mouth" now and then—a bad breath—a dull, tired feeling—sick headache—torpid liver and are constipated, you'll find quick, sure and only pleasant results from one or two little Dr. Edwards' Olive Tablets at bedtime.

Thousands take one or two every night just to keep right. Try them. 10c and 25c per box. All druggists.

POCATELLO MAY BE TRAINING CENTER

POCATELLO, Idaho, May 7.—The Idaho Technical Institute will be converted into a military training center this summer, if the recommendation of Professor Frank H. Shepherd, a government representative of the special educational training work for registrants, is acted upon.

Professor Shepherd, who is making a tour of the colleges and technical schools in this section of the country, has just completed an examination of the facilities of the Technical Institute and recommends that 100 men be sent here for training on July 1.

If the new Physical Education building, for which an appropriation of \$40,000 was made by the last session of the legislature, can be built by mid-summer, a second and larger contingent will be sent here later. The training given will be along the lines of automobile operation and repair, wireless operation, carpentry work and mechanical trades of all kinds.

U. S. GRAND JURY TRYING CASES

WASHINGTON, May 7.—Investigation by the department of justice of the deportation of 1186 copper mine workers from Bisbee and the Warren district of Arizona last July has developed apparent violations of the law, it was disclosed today, and Assistant Attorney-General William C. Pitts and Oliver E. Pagan, special attorney for indictment cases, have gone to Tucson, Arizona, where a United States grand jury is in session.

The investigators reported that in their opinion a number of the citizens of Bisbee and other towns responsible for the forced deportations violated federal laws forbidding conspiracy to deprive citizens of their constitutional rights. The penalty provided by law is a fine of not more than \$5000 and imprisonment not more than ten years.

The department of justice has been investigating the deportation since last fall when a labor commission headed by Secretary Wilson reported to the president on the deportations and suggested prosecution of those responsible.

TUCSON, Ariz., May 7.—With scores of department of justice agents in attendance and many witnesses summoned, the federal grand jury today began investigation of the deportation of 1186 copper mine workers from the Bisbee and Warren copper mining districts last July.

The deportations took place July 12 after a strike had been declared in the Warren district, which is producing large quantities of copper for the use of the government. The entire town of Bisbee suspended business during the drive, which was carried out under the direction of Harry C. Wheeler, then sheriff, who is now a captain in the United States army.

MIDNIGHT VISITS OF UNKNOWN MAN

KANSAS CITY, Mo., May 8.—"Shoot, then call the police," was the council given by John L. Ghent, chief of detectives, today following efforts to apprehend the man responsible for terrorizing women by midnight visits to bedrooms and threats of attack. The chief ordered his men to bring in the assailant "dead or alive."

For three weeks reports have been reaching the police at times six or eight in a night, of visits of a man the police call "the blinder," because of his method of throwing a flashlight into the faces of his victims.

Miss Catherine M. Ritter was found on the floor of her bedroom with a bullet wound in her neck and her condition today is dangerous. She said the intruder was a negro.

Robbery appears to be the motive for the visits. Miss Ritter is the first woman to be shot but several have been choked and all threatened with violence if they screamed.

MAURICE CHARGES TO BE INVESTIGATED

LONDON, May 7.—Andrew Bonar Law, government spokesman in the house of commons today, said in the house of commons that he asked to have two members of the house appointed to act as a court of honor to investigate the charges made by General Frederick B. Maurice who was recently removed from the post of director of military operations at the British war office.

Mr. Bonar Law said the army council was dealing matters of discipline growing out of a letter written by General Maurice.

Transfer of Maurice, General Maurice last month was transferred from the British war office to active duties in the field. His position as chief director of military operations was taken over by General Delma Radcliffe, formerly chief staff officer of the Canadian army and chief of the British military mission at Italian headquarters.

Shortly before his transfer General Maurice in one of his customary weekly interviews with American newspapermen made remarks which were considered in some quarters as reflecting on General Foch, the commander-in-chief of the combined allied forces.

Neighbor Told Her
Cure for Lumbago

Rheumatism and lumbago are awful things and cause great pain and misery, but Foley Kidney Pills can rout them.

Mrs. G. H. Evland, Duncan Mills, Ill., writes the following letter: "I was stricken down with lumbago and was unable to turn myself in bed. A neighbor brought me a half box of Foley Kidney Pills, and said she had been similarly afflicted and that they had helped her. So I tried them and completely overcame the use of two or three bottles. I have had splendid success with them and have never known them to fail. I most heartily recommend Foley Kidney Pills."

Foley Kidney Pills tone up weak, inactive, sluggish kidneys, rid the body of poisons, give appetite, energy and refreshing sleep after pain. Don't neglect kidney trouble. Remove the cause with Foley Kidney Pills.

Says Thick, Sluggish Blood Should Be Purified

A Greasy, Pimply Skin, a Foul Odor to Perspiration, Boils and Aches and Pains all Banished by Sulphur Tablets. Like Grandma's Remedy for Spring.

Take these tablets made of sulphur, cream of tartar, calcium sulphide and extracts of rare herbs and take regularly for a month or so, and you can drive the poisons out of your system. Sulphur Tablets are wonderful to overcome constipation, sluggish liver and kidneys and they quickly start all the eliminative organs working. They "flush the bowels," as it were, and you will feel their fine effects all through spring and summer. Headaches, catarrh, neuralgia, rheumatic pain, constipation and kindred ailments due to poisons in the blood, all go, the skin clears, pimples and boils are absorbed and pass out through the proper waste channels. Every package is guaranteed so you can prove it easily. Good for children and adults. All druggists 50c per sealed tube. Get Sulphur Tablets (not sulphur tablets).—Advertisement.

OSTRACISM FOR HUNS PROPOSED

NEW YORK, May 8.—Prussian frightfulness was denounced and the determination of America to wipe it out was emphasized at a Lusitania memorial mass meeting at Carnegie hall last night under the auspices of the American Defense society and the American Rights league. The speakers were Theodore Roosevelt and Senator Robert L. Owen of Oklahoma. Charles S. Fairchild, former secretary of the treasury presided.

Ostracism from the markets of the civilized world until they are ready to accede to the principles of international law and enter the family of nations as law-abiding members was urged by Senator Owen as the penalty the world should inflict upon the German, Austrian, Bulgarian and Turkish people.

After reviewing the events leading up to the sinking of the Lusitania and the rejoicing throughout Germany over the crime, he said:

"America probably will have 3,000,000 men on the battle field before the end of 1918, and whatever larger number is necessary will be forthcoming to establish once more the doctrine implanted by God himself in the human heart—that justice shall triumph over injustice, inhumanity and terrorism."

Thomas Skellyhill, an Anzac, who has been wounded many times and whose right arm recently was partly restored to him, asserted that many of the allied failures were due primarily to lack of preparedness.

"This is not only a soldiers' war," he said, "it is also a civilians' war." "I say to you people of America: Arise, arise, the foe is at the gate. The crisis of this war is approaching. Men, money, munitions are urgently needed. Save God's sake, prepare, prepare, prepare, because America prepared is Germany defeated."

Colonel Roosevelt was greeted with applause, which was not stifled until the national anthem had been sung by the great audience.

PLUMER'S FREEDOM PROVES SHORTLIVED

SALT LAKE, May 8.—Leslie Plumer, who made his escape from the county jail on March 28, while enjoying the privileges of a trusty at that institution, has been arrested in Sacramento. He was extradited from Sacramento last December and sentenced to six months in the county jail upon pleading guilty to a burglary charge for breaking into the Schramm-Johnson drug store at Fifth South and Main streets to steal drugs.

Arthur C. Cook, wanted here on a charge of obtaining money by false pretenses, is under arrest in Los Angeles. He is alleged to have sold an automobile that did not belong to him.

Both men will shortly be brought back to Salt Lake. Deputy Sheriff W. E. Schoppe left for California last night with requisition papers for their extradition.

Plumer was the first of the only two men to get away from the county jail under the administration of Sheriff John S. Corless. Carlos Mondanes, a Mexican, who ran when trusted to carry a can of ashes to the street curb, made his escape on April 1 and was arrested at Ely, Nev., and returned before the end of the month.

SHIPBUILDING WORK HAS SLOWED DOWN

SALT LAKE, May 8.—Shipbuilding on the Pacific coast has slowed down considerably, according to information received yesterday by J. Moran of the United States public service reserve from L. W. Litchfield of the clearance section of the department of labor, because of the lack of wood ship caulkers.

According to the report, there is a distressing "pinch" for men who have had experience in caulking ships. To meet the shortage, however, arrangements have been made in the northwest to take on apprentices, but this does not meet the demands of the present situation.

RAILROAD WAGE TO BE INCREASED

WASHINGTON, May 7.—Director General McAdoo will announce soon his decision on recommendations of the railroad wage commission, which were said in well-informed quarters to propose an average 20 per cent advance in pay for all classes of railroad employees. If Mr. McAdoo follows the suggestion of the commission, approximately \$260,000,000 will be added to the payrolls of the nation's railroads.

Strong pressure is said to have been brought to bear on the director general to modify some of the commission's recommendations, especially affecting the four great brotherhoods. Mr. McAdoo is not bound to follow the advice of the commission and can increase or reduce their recommendations as they see fit. The commission followed its announced policy of giving the highest paid unions the lowest rate of advance, holding the relief needed most by the men who have been barely making ends meet or perhaps going in debt on the wages they received.

Apparently none of the commission's recommendations has met the requests of the unions themselves, which ranged as high as 40, 50 and 60 per cent.

A majority of the commission is said to have felt that the eight-hour day should be made universal for railroad employees while the war is in progress, fearing to upset transportation and necessitate the expenditure of large sums in addition to the increases suggested.

It is said the commission has urged that after the war the eight-hour day be extended and made the basis of employment of all classes of railroad workers.

DOCTOR GAVE THIS RUN-DOWN WOMAN VINOL

And She Got Well—Her Nervousness Disappeared

Flint, Mich.—"I keep house for my family of six and go into a generally nervous condition. I was weak, nervous and could not sleep, and had headache a good deal of the time. My doctor prescribed Vinol and it made me well and strong. I am a good deal less nervous and can sleep nights."—Clara Smith, 1213 W. 4th Ave., Flint, Mich.

We sell Vinol on a positive guarantee to make nervous, weak, run-down women well and strong or return their money. Try it anyway. Culley Drug Co., Ogden, and at the best drug store in every town and city in the country.—Advertisement.

SCARCITY OF BLACK WALNUT.

NEW YORK, May 8.—Scarcity of black walnut timber for the making of gun stocks and airplane propellers has resulted in President Wilson addressing an appeal to the 350,000 Boy Scouts of America asking them to communicate to the war department the location throughout the country of black walnut trees, their sizes, the names of the owners and the price at which they can be purchased.

President Wilson's letter containing this call was made public here today by James E. West, chief scout executive of the Boy Scouts of America.

TEN MILLION TONS OF SHIPPING IN SIGHT

WASHINGTON, May 8.—An enormous appropriation for merchant ship construction will be asked of the house appropriation committee by Chairman Hurley of the shipping board, in presenting estimates for the fiscal year beginning July 1. Until congress is informed of the board's plans, Mr. Hurley declined to indicate their extent or exact amount involved.

With all shipyards in operation, it is estimated that more than 10,000,000 tons of shipping can be produced during the year. On this basis, Mr. Hurley's budget for the new year probably will run close to \$2,500,000,000, allowing for new concrete yards to be built and concrete construction not contemplated in the original plans of the board.

Extensions now being made in steel plants will allow an increase in the shipbuilding program, of which it is expected full advantage will be taken.

OIL INVESTORS

Investigate before buying stock. The Oil Man, an illustrated bi-monthly paper, contains much valuable information. All Fields. Correct quotations. Don't buy or sell any oil stock until you write for confidential report, correct price and sample copy of The Oil Man, all mailed free.

YOU CAN SHARE IN oil-profits without buying oil stock or depending upon corporate management. A recent issue of The Oil Man tells all about Oil Royalties, some of them now paying 5 per cent per month on your money, and sending out dividend checks twice every month. Send for The Oil Man today. Geo. A. Lowe Co.

consistent with the needs of other government departments. Delays in steel deliveries, due in large part to transportation, still are causing officials concern. Only 50,000 tons of steel plates and shapes were delivered last week, much below requirements now and only a fraction of what will be needed as work progresses. A new yard, the Baltimore Drydock and Shipbuilding company, yesterday appealed for steel.

Director General Schwab of the Emergency Fleet corporation is endeavoring to arrange supplies so that a yard will have steel available for three or four months when a keel is laid. He believes that abundance of material will act as an incentive to speedy production.

COAL COMPANY PUNISHED. WASHINGTON, May 8.—For supplying a Belgium relief steamer and other ships with a grade of coal that exposed them to the submarine menace, instead of smokeless coal, the New York and Philadelphia Coal and Coke company was ordered by the fuel administration yesterday to contribute \$1000 to the Belgian relief commission and suspend operation for five days beginning May 9. It will also refund \$135 for each short ton of the low grade fuel delivered.
